B.E- Computer Sciene and Engineernig (AIML)	2020-2024
Alamuri Ratnamala Institute of Engineering & Technology	CGPA-7.5
Shahpur-Maharashtra	

Skills

Languages- JS

Libraries- jQuery, GSAP, React

Frameworks- Tailwind

Version Controls- Git

Projects

Numbshoot

- Developed a number shooting game for 2 to 4 players using JavaScript, DOM manipulation, and jQuery.
- Implemented random number generation for player turns, with the first player to reach a pre-set score winning.
- Designed and integrated two different game modes to to make the game more fun and engaging for players.
- Designed with a large-screen-first approach, optimizing for desktop view.

Fintrack

- Built a fully responsive expense tracker using React JS, Tailwind CSS and Rechart JS library.
- User add detail about expense, and can view them in structured format.
- Integrated features like dynamic expense searching, editing and deletion of expense for efficient expense management.
- Developed a dashboard where user get summary,and analyze expenses through pie charts for any year and month.

Portfolio

- Developed a personal portfolio website using React JS to showcase projects and skills.
- Implemented smooth animation using GSAP for an interactive and engaging user experience.
- Designed fully responsive UI with Tailwind CSS, ensuring seamless performance across devices.
