Education

B.E- Computer Science and Engineering	2020-2024
University of Mumbai	CGPA-7.5

Alamuri Ratnamala Institute of Engineering & Technology

Shahpur-Maharashtra

Skills

Languages- Javascript

Libraries- React JS, Zustand, jQuery, GSAP,

Frameworks- Tailwind CSS

Version Controls- Git, Github

Projects

Numbshoot-[Live][Github]

- Designed and developed a laptop-first competitive game for 2–4 players using HTML, CSS, JavaScript, and jQuery.
- Implemented two game modes: One Shoot (single attempt per turn) and Greedy (multiple attempts with risk) to make the game more fun engaging for players.
- Designed gameplay with random number generation, danger numbers, player switching based on mode, and a winning score system.
- Developed game restart and full reset functionality for seamless gameplay.

Fintrack-[Live][Github]

- Built a fully responsive expense tracker using React JS, Tailwind CSS and Rechart JS library.
- User add detail about expense, and can view them in structured format.
- Added features like filtering, sorting and custom date range for expense searching, and editing and deleting of expense for efficient expense management.
- Developed a dashboard where user get summary,and analyze expenses through pie charts for any year and month.

Portfolio-[Live][Github]

- Developed a personal portfolio website using React JS to showcase projects and skills.
- Implemented smooth animation using GSAP for an interactive and engaging user experience.
- Designed fully responsive UI with Tailwind CSS, ensuring seamless performance across devices.
